

Solution:

```
#pond {  
  display: flex;  
  flex-flow: column-reverse wrap-reverse;  
  justify-content: center;  
  align-content: space-between;  
}
```

- flex-flow: Column reverse shifts the frogs into a column in reverse order, wrap-reverse wraps the frogs in the reverse order.
- align-content: equal space between frogs.
- justify-content: center the frogs on the main axis (yellow).
